About me

Junior UX/UI Designer at the end of my training, passionate about creating modern, clear and user-centered interfaces. I design user journeys, wireframes and interactive prototypes, with special attention to usability, readability and the overall user experience.

My background in sales, marketing, management and hospitality helped me develop strong customer awareness: listening skills, adaptability, communication and understanding user needs. I am looking for my first client in UX/UI Design, Web Design or Junior UI Design, in a company where I can learn, contribute and grow.

Experience

Cybersecurity Quiz

Training project — 4 months

Application

UX/UI design of an educational application focused on cybersecurity. The project was mainly completed independently, with the main decisions made in pairs.

- Needs analysis and reflection on the user journey
- Creation of wireframes and interactive prototypes in Figma
- Design of screens and user flows
- Responsive interface design
- Work on visual hierarchy, usability and readability
- Creation of a clear experience with an educational purpose

Main tool: Figma

Certifications

- Diploma in Sales & Marketing — IFAPME, 2024
- CESS — Certificate of Upper Secondary Education, 2019
- Management diploma
- Hospitality and catering qualification
